

Oil Filters

Meets or Exceeds OEM Requirements

Advanced Cutting Technology

OIL FILTERS

FEATURES

- **100% Pressure and leak tested**
- **Same as OEM micron rating**
- **Cured resin impregnated filter paper**
- **Filter paper area equal or greater than OEM**
- **Anti-drain back valve**
- **Pressure relief valve**
- **Metal end caps**
- **Perforated steel core**
- **Rolled seam lid assembly**
- **Rubber oil seal**
- **Micron rating and OEM application information printed on filter**
- **Date/part number/hours label included**
- **Oregon® branded packaging**
- **Limited lifetime warranty**

BENEFITS

- **Quality assured out of box.**
- **Meets OEM requirements.**
- **Removes harmful foreign particles.**
- **Gives equal or in some cases greater filtering capacity than OEM filters.**
- **Prevents oil from draining out of filter during engine shutdown.**
- **Opens when necessary to provide engine with oil under all conditions.**
- **Metal end caps with thermo setting adhesive provide positive seals.**
- **Provides sturdy rigid internal construction while allowing full flow.**
- **Roll seamed to shell for leak-tight assembly.**
- **Positive leak-free seal to equipment.**
- **Makes it simple to get the right filter for the right equipment.**
- **Allows for maintenance tracking.**
- **Quality product name recognition.**
- **Assurance of long service life.**
